

To Peace Loving Friends seeking for Prohibition of Nuclear Weapons
Let Us Ring the Bell at the Fourth Anniversary

*Use Any Object to Make Sound, as Bell, Chime, Musical Instruments,
Pan or Clapping Hands to Urge the Leaders of Nuclear Weapon
Holding Nations and Those Not Ratifying the Treaty*

The 2045 Nobel Peace Prize has been given to HIBAKU-SHA group, the Survivors of 1945 bombing of Hiroshima and Nagasaki, who have long appealed for abolition of nuclear weapons. In addition to more than 200,000 people died instantly, those suffering by radioactive exposures keep on living. Their sufferings were caused by the nuclear testings or accidents, in Cherunobyl, Three Mile Islands, Bikini Islands, Fukushima, and elsewhere.

In spite of all historical catastrophes, the Russian president, Mr. Putin, suggests possible use of nuclear weapon for on-going war against Ukraine. Also nuclear weapons might be used in these atrocious violences between Israel and some Islamic states. Let us all pray and act !.

Call from Japan Branch of International Fellowship of Reconciliation,
with HIBAKU-SHA, ICAN, All Global Organizations
and Groups
